molinetto

The Molinetto Winery is an oenologic jewel in Gavi area, with 8 hectares of vineyard planted with the Cortese grape.

Situated in the area of Francavilla Bisio and Tassarolo, where the Piedmontese hills meet the sea breeze, Molinetto Winery bases its production in the prestigious Gavi DOCG.

This fragrant white wine is soft, fruity, elegant and is made from 100% Cortese grapes.

The Molinetto Winery is today managed by the youngest son, Diego Carrea: Degree in Electronic Engineering and Executive MBA, Computer Expert first in Genoa, then in Milan. Until October 2008, when Diego decides to choose the "road less traveled", to listen to his own "deep roots": come back home to continue the family wine business started by his father Matteo and by his uncle Domenico since 1990.

His choice to work in the winery speaks of his love for the land that daily strengthens the ties to the winery's founders and renews the agricultural traditions of lower Piedmont.

The product range consists of 5 labels of wines produced from Cortese grapes:

1. Gavi Docg
2. Re-Lys Gavi Docg
3. Gavi Docg Metodo Classico
4. Amphora – white wine
5. Orange – white wine
